SUBJECT INDEX TO VOLUME 170

ABDOMEN
hernia, recurrent, inguinal, in relation to ideal body weight, 510
inguinal canal, hernia, recurrent, in relation to ideal body weight, 510
surgery, recurrent inguinal hernia in relation to ideal body weight, 510
Adrenal glands
response to trauma, operation and cosyntropin stimulation, 513
Amino acids
cholecystokinin, experimental, induced pressure in biliary tract, inhibition of, with proglumide and CR-1409, in vivo comparison, 219
Anesthesia
local, for carotid endarterectomy, supplemented with neuroleptic analgesia, 141
Antibiotics
cefmetazole, controlled comparison with cefoxitin, for prophylaxis in elective cholecystectomy, 137
cefoxitin, controlled comparison with cefmetazole, for prophylaxis in elective cholecystectomy, 137
prophylaxis, in elective cholecystectomy, controlled comparison of cefmetazole with cefoxitin, 137
use of, at time of mastectomy, prospective, randomized double-blind study, 12
Aorta
bypass, and renal, bilateral, simplified method for, 159
surgery, elective, performed by residents, zero operative mortality rate, 385

BACTERIA
sterilizing scalpel, contact neodymium-yttrium-aluminum garnet laser acts as, 17
BIliary tract
disease, treatment, use of new transhepatic biliary stent tube, 358
ducts, common, anastomosis, without T tube or internal stent in transplantation of liver, 239
examination, endoscopy, insertion of endoprostheses, treatment of fistulas, 418
experimental, pressure, cholecystokinin-induced, inhibition of, with proglumide and CR-1409, in vivo comparison of, 219
fistula, treatment of, by endoscopic insertion of endoprostheses, 418
obstruction, malignant nonpancreatic, palliation of, 437
roentgenography, intraoperative, simplified technique to relax sphincter of Oddie during, 163
sludge, parenteral nutrition induced, prevention, cholecystokinin, in humans, 25
surgery, choledochocholedochostomy, without T tube or internal stent in transplantation of liver, 239
hepatic abscess after, 469
Bladder
augmentation, in preparation for renal transplantation, 349
surgery, augmentation cystoplasty, pregnancy after, 485
Blood
dialysis, continuous ambulatory peritoneal, genital swelling as a surgical complication of, 306
erythrocytes, polycythemia vera, arterial reconstruction, 314
experimental, hemorrhage, shock, uncontrolled, treatment, with hypertonic saline solution, 106
glucose, intolerance, gestational, impact of universal screening for on outcome of pregnancy, 427
hemorrhage, perirenal, spontaneous, rational approach, evaluation and management of, 121
shock, uncontrolled, treatment, with hypertonic saline solution, 106
leukocytes, neutrophil leukotriene B_4, elevated production of, precedes pulmonary failure in critically ill surgical patients, 495
platelets, wound healing formula derived from, use in stimulation of repair in chronic, nonhealing cutaneous ulcers, 56
venous, anastomosis, roll over sleeve technique for, simple and safe, 77
Blood vessels
arterial, reconstruction, in patients with polycythemia vera, 314
arteries, carotid, endarterectomy, under local anesthesia, supplemented with neuroleptic analgesia, 141
carotid, endarterectomy, in smaller community, 522
femoral, exposure, elastic retraction for, 71
injury, proximity, evaluation, angiography in, 117
renal, aorta-, bilateral, bypass, simplified method for, 159
surgery, carotid, under local anesthesia, supplemented with neuroleptic analgesia, 141
endarterectomy, carotid, in smaller community, 522
veins, femoral, central, catheter, placement, percutaneous, in transplantation of bone marrow, 403
mesenteric, thrombi, role of second-look procedure in improving survival time, 287
saphenous, bypass, in situ, roentgenographic marking using surgical staples after, 361
surgery, splenorenal shunt, distal, simplified technique for splenopancreatic disconnection with, 355
thrombi, mesenteric, role of second-look procedure in improving survival time, 287
vena cava, inferior, secure, thumb and index finger as principal surgical instruments to, between liver and diaphragm, in routine operations of liver, 169
Bones
marrow, transplantation, femoral central venous catheter, placement, percutaneous, in, 403
transplantation, marrow, percutaneous placement of femoral central venous catheter in, 403
Breast
biopsy, needle-localized of, 145
Tru-Cut® needle, in diagnosis of carcinoma, 407
ultrasonically guided, of nonpalpable lesions, by spot method, 153
cancer; carcinoma, diagnosis, role of Tru-Cut® needle biopsy, 407
nonpalpable, infiltrating, prognosis of, 61
cystosarcoma phyllodes, treatment options and recurrence potential, 193
cysts, cystosarcoma phyllodes, treatment options and recurrence potential, 193
lesions, nonpalpable, biopsy, ultrasonically guided, by spot method, 153
papillary, intracystic, mammographic features of, 113
roentgenography, breast features, of intracystic papillary lesions, 113
surgery, antibiotics, use of, at time of, prospective, randomized double-blind study, 12
cystosarcoma phyllodes, treatment options and recurrence potential, 193
reconstructive, Kiricuta procedure in treatment of, 209
tumors, cystosarcoma phyllodes, treatment options and recurrence potential, 193
Burns
in critically ill patients, serum cachetin/tumor necrosis factor in, correlates with infection and mortality, 32
thermal, severe, in boys and girls, incidence of mortality after, 295

CANCER
breast, carcinoma, diagnosis, role of Tru-Cut® needle biopsy in, 407
carcinoma, nonpalpable, infiltrat-

ing, prognosis of, 61
cystosarcoma phyllodes, treatment options and recurrence potential, 193
gynecologic, in the elderly patient, surgical treatment for, 379
prognosis, of nonpalpable, infiltrating carcinoma of breast, 61
rectum, carcinoma, distal intramural spread, nonrelated with lymph nodal involvement, 45
carcinoma, lower one-third, management, total mesorectal excision with ultra-low anterior resection, operative and functional results, 517
surgery, curative gastrectomy, quantitative analysis of nodal involvement with respect to survival rate, 488
cystosarcoma phyllodes, treatment options and recurrence potential, 193
gynecologic, in elderly, 379
Catheters
continuous measurement of atrial volume with, during positive pressure ventilation and volume expansion, 501
urinary, defective, remove, simple method for, 253
venous, femoral, central, placement, percutaneous, in transplantation of bone marrow, 403
Collective review
Biologic characteristics of cytokines and their implication in surgical injury, 363
From Prout to the proton pump—a history of the science of gastric acid secretion and the surgery of peptic ulcer, 81
Pharmacodynamics of antibiotic penetration of tissue and surgical prophylaxis, 283
Portal hypertension, 177
Secondary pancreatic infections, 459
Surgical separation of conjoined twins, 549
Cysts
hydatid, liver, thoracic extension of, 233
mammary, cystosarcoma phyllodes, treatment options and recurrence potential, 193
Cytology
findings after construction of neovagina using two surgical procedures, 21

DIAGNOSIS
carcinoma of breast, role of Tru-Cut® needle biopsy, 407
ovarian pregnancy, and modern surgical management, 395
Diaphragm
surgery, and liver, routine, thumb and index finger as principal surgical instruments to secure inferior vena cava between, 169
Disease
biliary, treatment, use of new transhepatic biliary stent tube in, 358
Graves', treatment, surgical, response, clinical evaluation of, 327
lymphoreticular, masquerading as or associated with inguinal or femoral hernia, 309
Drainage
endoscopic balloon dilation of pylorus after esophagogastrostomy without, 424
and open treatment, for ingrowing toenail, 223
retroperitoneal and peritoneal, and lavage, in treatment of severe necrotizing pancreatitis, 197
volume, high, beneath large tissue flaps, technique for, 70
Drugs
neuroleptic, analgesia, carotid endarterectomy under local anesthesia, supplemented with, 141
proglumide, and CR-1409, experimental, inhibition with, of cholecystokinin-induced pressure in biliary tract, in vivo comparison of, 219
somatostatin, effect on peptide release and tumor growth in Zollinger-Ellison syndrome, 476

ENDOSCOPY
balloon, dilation, of pylorus, after esophagogastrostomy without drainage procedure, 424
biliary tract, insertion of endoprostheses, treatment of fistulas, 418
fiberoptic, of the gastrointestinal tract, in surgical training, 283
insertion of endoprostheses as treatment of fistulas of biliary tract, 418
Enzymes
amylase, serum levels, after obstetric and gynecologic operations, 292
Esophagus
achalasia, surgery, Heller-Belsey and Heller-Nissen operation for, 212
anastomosis, lower, stapled transabdominal, without purse-string suture, 156
lower, anastomosis, stapled transabdominal, without purse-string suture, 156
reflux, gastro-, treatment, posterior fundoplasty in, 451
surgery, Heller-Belsey and Heller-Nissen, for achalasia of, 212
and stomach, endoscopic balloon dilation of pylorus after, without drainage, 424
substitution, stomach, preoperative assessment of length of for, 257
synchronous, two team, 68
Extremity
roentgenography, arteries, single film, exclusion, technique for evaluation of injury of, 448

FALLOPIAN TUBE
normal, torsion, isolated, in premenarchial girls, 353
Fascia
inflammation, necrotizing, of male genitalia, causes, presentation and survival, 49
Flaps
tissue, large, high volume drainage beneath, technique for, 70
Fluids
administration, lavage, peritoneal, reliability of, Bayesian analysis, 7
Foot
toe, nail, ingrowing, treatment, open, with drainage for, 223

GALLBLADDER
calculi, intrahepatic, multiple, removal, use of pulsed dye laser and ultrasonic lithotriptor, 443
symptomatic, surgery, alternative treatments for, comparison, with emphasis on long term relief, modern standards for, 39
excision, elective, prophylaxis in, controlled comparison of cefmetazole with cefoxitin, 137
surgery, alternative treatments, comparison, for gallstones, symptomatic, with emphasis on long term relief, modern standards for, 39
cholecystectomy as a definitive operation, 533
excision, elective, prophylaxis in, controlled comparison of cefmetazole with cefoxitin, 137
Gastrointestinal tract
appendix, inflammation, in children, 527
endoscopy, fiberoptic, in surgical training, 283
reflux, and esophagus, treatment, posterior fundoplasty, 451
roentgenography, evaluation, electromyographic, in patients with chronic Roux-en-Y limb, 399
Genitalia
male, fasciitis, necrotizing, causes, presentation and survival, 49
swelling, as surgical complication of continuous ambulatory peritoneal dialysis, 306
Geriatrics
cancer; carcinoma, surgical treatment for, 379
surgery, treatment for gynecologic cancer, 379
Gloves
surgical, sterile, of patients for emergent and ambulatory operations upon finger, 546
Glucose
intolerance, gestational, impact of universal screening for on outcome of pregnancy, 427
Gynecology
cancer, surgical treatment for elderly patient, 379
surgery, and obstetric, serum amylase levels after, 292
treatment for the elderly patient with cancer, 379

HANDS
fingers, index, and thumb, as principal surgical instruments to se-

cure inferior vena cava between liver and diaphragm in routine operations of liver, 169
surgery, emergent and ambulatory, sterile surgical gloving of patient for, 546
thumb, and index finger, as surgical instruments to secure inferior vena cava between liver and diaphragm in routine operations of liver, 169
Heart
atrium, volume, measurement, continuous, with impedance catheter, during positive pressure ventilation and volume expansion, 501
Hernia
femoral, or inguinal, masquerading as or associated with lymphoreticular disease, 309
inguinal, or femoral, masquerading as or associated with lymphoreticular disease, 309
recurrent, in relation to ideal body weight, 510
surgery, drains, and risk of wound infection, Israeli Study of Surgical Infection, 331
recurrent inguinal, in relation to ideal body weight, 510
Hormones
adrenocorticotropic, synthetic, cosyntropin, stimulation with, and operation and trauma, adrenal response to, 513
cholecystokinin, prevents parenteral nutrition induced biliary sludge in humans, 25
Hospitals
personnel, residents, zero operative mortality rate in 109 consecutive elective operations performed by, 385
tumor conferences, results of national survey of characteristics of, 1

INFANTS
newborn, airway, obstruction of, from teratoma, 126
tumors, teratoma, obstruction of airway in from, 126
Infection
bacterial, prevention, sterilizing scalpel, contact neodynium-yttrium-aluminum garnet laser, 17
and mortality, correlates with, serum cachetin/necrosis factor, in critically ill patients with burns, 32
prevention, controlled comparison of cefmetazole with cefoxitin for prophylaxis in elective cholecystectomy, 137
surgical, elective cholecystectomy, prophylaxis, controlled comparison of cefmetazole with cefoxitin, 137
risk of, and use of drains in operations for hernia, Israeli Study of Surgical Infection, 331
wound, risk of, and use of drains in operations for hernia, Israeli Study of Surgical Infection, 331
Instruments and apparatus
biliary stent tube, transhepatic, new, use of, in treatment of biliary disease, 358
catheter, urinary, defective, remove, simple method for, 253
circular instrumental anastomoses, pregluing of, 161
choledochofiberscope, for use in visualization of intestine, intraoperative, technique for, 541
device, new, for dtection of sponges and other foreign objects left accidentally in operative field, 259
dilation, balloon, endoscopic, of pylorus, after esophagogastrostomy, without drainage procedure, 424
endoscope, balloon, dilation, for postgastrectomy anastomotic stricture, easy and safe modified method of, 445
laser, contact neodynium-yttrium-aluminum garnet, acts as sterilizing scalpel, 17
dye, pulsed, use of, and ultrasonic lithotriptor, for removal of multiple intrahepatic gallstones, 443
lithotriptor, ultrasonic, use of, and pulsed dye laser, for removal of multiple intrahepatic gallstones, 443
needle, Tru-Cut®, biopsy, role of in diagnosis of carcinoma of breast, 407
needle-localized biopsy, of breast, 145
new disposable colostomy plug, achievement of stomal continence in one-third of colostomies by use of, 390
scalpel, sterilizing, contact neodynium-yttrium-aluminum garnet laser acts as, 17
staples, surgical, roentgenographic marking using, after in situ, 361
stents, internal, choledochocholedochostomy without, or internal stent, in transplantation of liver, 239
tube, T, choledochocholedochostomy without, or internal stent, in transplantation of liver, 239
T, insertion, simple technique, transplantation of liver, 249
ultrasound, biopsy, of nonpalpable lesions of breast by spot method, 153
Intestines
cancer; carcinoma, rectum, distal intramural spread of, correlated with lymph nodal involvement, 45
rectum, lower one-third, management, resection, anterior, ultra-low, total mesorectal excision, operative and functional results, 517
cecum, for construction and reconstruction of vagina, 132
colon, surgery, achievement of stomal continence in one-third of colostomies by use of new disposable plug, 390
surgery, bridging, modified technique of, 453
duodenum, and jejunum, surgery, as alternative to anastomosis of small intestines at ligament of Treitz, 172
surgery, and pancreas, pyloric preservation and divulsion after, 72
papillo-, technique of, 254
experimental, autotransplantation, early and long term effects of, on motor patterns of, 338
ileum, surgery, continent, Kock, obstructed, decompression of, technique for, 75
intussusception, jejunogastric, as technique for in situ resection, 165
jejunum, autotransplantation, experimental, early and long term effects on intestinal motor patterns, 338
and duodenum, surgery, as alternative to anastomosis of small intestines at ligament of Treitz, 172
and gastric, intussusception, as technique for in situ resection, 165
mesentery, venous thrombosis, role of second-look procedure in improving survival time, 287
motor patterns, experimental, early and long term effects of on, model of intestinal autotransplantation, 338
rectum, cancer; carcinoma, distal intramural spread of, correlated with lymph nodal involvement, 45
cancer; carcinoma, lower one-third, management, resection, anterior, ultra-low, total mesorectal excision, operative and functional results of, 517
small, anastomosis, at ligament of Treitz, duodenojejunostomy as alternative to, 172
surgery, intra-, use of choledochofiberscope for visualization of, technique for, 541
colon, achievement of stomal continence in one-third of colostomies by use of a new disposable plug, 390
bridging, modified technique of, 453
duodenum, papillo-, technique of, 254
and pancreas, pyloric preservation and divulsion, 72
experimental, model of autotransplantation of intestine, early and long term effects on intestinal motor patterns, 338
ileum, continent, Kock, obstructed, decompression of, technique for, 75
jejunum and duodenum, as alternative to anastomosis of small intestine at ligament of Treitz, 172
rectum, cancer; carcinoma, lower one-third, total mesorectal excision with ultra-low anterior resection, 517

second-look procedure, role of in improving survival time for mesenteric venous thrombosis, 287
transplantation, auto-, experimental, early and long term effects on intestinal motor patterns, 338

KIDNEY
blood supply, aortorenal, bilateral, bypass, simplified method for, 159
hemorrhage, peri-, spontaneous, rational approach to, evaluation and management of, 121
surgery, shunt, and spleen, distal, simplified technique for splenopancreatic disconnection, 355
transplantation, augmentation of bladder in preparation for, 349

LIGAMENT
cervix uteri, vaginal hysterectomy without ligation of, 299
falciform, further clinical application of, 167
Treitz, anastomosis, of small intestine at, duodenojejunostomy as alternative to, 172
Liver
abscess, after biliary tract procedures, 469
cysts, hydatid, thoracic extension of, 233
surgery, routine, thumb and index fingers as principal surgical instruments to secure inferior vena cava between diaphragm and, 169
transplantation, complications after, 317
transverse, en bloc resection of hepatic segments 4B, 5 and 6 by, 250
transplantation, analysis of surgical complications after, 317
choledochocholedochostomy without T tube or internal stent in, 239
T-tube insertion, simple technique of, 249
Lungs
physiology, failure, elevated production of neutrophil leukotriene B_4 before, in critically ill surgical patients, 495
Lymphatic system
lymph nodes, cancer; carcinoma, quantitative analysis in respect to survival rate after curative gastrectomy, 488
involvement, distal intramural spread of carcinoma of rectum, 45

MORTALITY
incidence in boys and girls after severe thermal burns, 295
Muscles
sphincter of Oddie, simplified technique to relax, during intraoperative cholangiography, 163

NAILS
toe, ingrowing, treatment, open, with drainage for, 223
Nutrition
parenteral, induced biliary sludge, prevention, cholecystokinin, in humans, 25

OBSTETRICS
surgery, and gynecologic, serum amylase levels after, 292
Ovary
excision, and diagnosis, pregnancy, 390
pregnancy, diagnosis and modern surgical management, 390

PAIN
analgesia, neuroleptic, carotid endarterectomy under local anesthesia, supplemented with, 141
Pancreas
enzymes, amylase, serum levels after obstetric and gynecologic operations, 292
experimental, islet isolation and transplantation, in primate, 225
inflammation, necrotizing, severe, treatment of, retroperitoneal and peritoneal drainage and lavage in, 197
islets, isolation, and transplantation, in primate, 225
non-, palliation for, malignant obstruction of biliary tract, 437
pseudocysts, natural history, documented by computed tomography, 411
roentgenography, computed tomography, in documentation of natural history of pseudocysts, 411
and spleen disconnection, simplified technique for, with distal splenorenal shunt, 355
surgery, and duodenum, pyloric preservation and divulsion after, 72
Pediatrics
appendix, inflammation, 527
females, premenarchial, isolated torsion of normal fallopian tube in, 353
spleen, injury, management, evolution in, 245
Peritoneum
continuous ambulatory dialysis, genital swelling as surgical complication, 306
lavage, and drainage, and retroperitoneal, in treatment of severe necrotizing pancreatitis, 197
reliability of, Bayesian analysis, 7
Prosthesis
endoscopic insertion of endo-, treatment, fistulas, biliary tract, 418

RETROPERITONEAL SPACE
drainage and lavage, and peritoneal, in treatment of severe necrotizing pancreatitis, 197
Roentgen rays
diagnosis, angiography, arterial injury, proximity, evaluation of, 117
arteries, exclusion, single film, extremity, technique for evaluation of injury to, 448
biliary ducts, intraoperative, simplified technique to relax sphincter of Oddie during, 163
gastrointestinal tract, electromyographic evaluation of, in patients with chronic Roux-en-Y limb, 399
mammography, features, of intracystic papillary lesions, 113
tomography, in documentation of natural history of pancreatic pseudocysts, 411

SHOCK
experimental, hemorrhagic, uncontrolled, treatment, with hypertonic saline solution, 106
hemorrhagic, uncontrolled, treatment, with hypertonic saline solution, 106
Skin
ulcers, chronic, nonhealing, stimulation of repair using platelet-derived wound healing formula, 56
Spleen
injuries, management, evolution in, in children, 245
and pancreas, disconnection, with distal splenorenal shunt, simplified technique for, 355
surgery, shunt, splenorenal, simplified technique for splenopancreatic disconnection with, 355
trauma, management, in adults with blunt multiple injury, 204
Stomach
cancer; carcinoma, excision, curative, survival rate after, quantitative analysis of nodal involvement, 488
excision, curative, for carcinoma, survival rate after, quantitative analysis of nodal involvement, 488
intussusception, jejuno-, as technique for in situ resection, 165
pylorus, dilation, balloon, endoscopic, after esophagogastrostomy without drainage procedure, 424
preservation and divulsion, after pancreaticoduodenectomy, 72
surgery, technique for performance of safe pyloromyotomy, 347
and esophagus, endoscopic balloon dilation of pylorus after, without drainage procedure, 424
pre-, assessment of length of, for esophageal substitution, 257
technique for performance of safe pyloromyotomy, 347
Surgeon's library
Doctor Georg Handell and knife swallower of Halle, 175
Misinterpretations concerning Larrey's methods of wound treatment, 280
Ruptured abdominal aortic aneurysm of Albert Einstein, 455
Who is Poupart?, 78
Surgery
accidents and errors, new device for detection of sponges and other

foreign objects left accidentally in operative field, 259
complications, analysis of, after hepatic transplantation, 317
genital swelling from continuous ambulatory peritoneal dialysis, 306
elective, aortic, zero mortality rate, performed by residents, 385
cholecystectomy, prophylaxis in, controlled comparison of cefmetazole with cefoxitin for, 137
experimental, in vivo comparison of inhibition with proglumide and CR-1409 of cholecystokinin-induced pressure in biliary tract of guinea pig, 219
model of intestinal autotransplantation, early and long term effects on intestinal motor patterns, 338
primate, islet isolation and transplantation in, 225
treatment of uncontrolled hemorrhagic shock with hypertonic saline solution, 106
gynecologic, cancer, in the elderly patient, 379
infection, wound, risk of and use of drains in operations for hernia, Israeli Study of Surgical Infection, 331
morbidity and mortality, incidence of, in boys and girls after severe thermal burns, 295
serum cachetin/tumor necrosis factor in critically ill patients with burns correlates with infection and, 32
zero per cent, in 109 consecutive aortic operations performed by residents, 385
obstetric and gynecologic, serum amylase levels after, 292
postoperative study, achievement of stomal continence in one-third of colostomies by use of new disposable plug, 390
adrenal response to trauma, operation and cosyntropin stimulation, 513
analysis of surgical complications after hepatic transplantations, 317
appendicitis in children, 527
augmentation of bladder in preparation for renal transplantation, 349
Bayesian analysis of reliability of peritoneal lavage, 7
carotid endarterectomy under local anesthesia, supplemented with neuroleptic analgesia, 141
causes, presentation and survival, for necrotizing fasciitis of male genitalia, 49
cholecystectomy as a definitive operation, 533
choledochocholedochostomy without T tube or internal stent in transplantation of liver, 239
clinical evaluation of response to surgical treatment of Graves' disease, 327
construction and reconstruction of vagina with cecum, 132
continuous measurement of atrial volume with impedance catheter during positive pressure ventilation and volume expansion, 501
controlled comparison of cefmetazole with cefoxitin for prophylaxis in elective cholecystectomy, 137
cytologic findings after construction of a neovagina using two surgical procedures, 21
diagnosis and modern surgical management of ovarian pregnancy, 395
distal intramural spread of carcinoma of rectum correlated with lymph nodal involvement, 45
duodenojejunostomy as alternative to anastomosis to small intestines at ligament of Treitz, 172
effect of somatostatin on peptide release and tumor growth in Zollinger-Ellison syndrome, 476
electromyographic evaluation of gastrointestinal tract in patients with chronic Roux-en-Y limb, 399
elevated production of neutrophil leukotriene B_4 precedes pulmonary failure in critically ill surgical patients, 495
emergent cerclage, 323
en bloc resection of hepatic segments 4B, 5 and 6 by transverse hepatectomy, 250
endoscopic balloon dilation of pylorus after esophagogastrostomy without drainage procedure, 424
evolution in management of splenic injury in children, 245
genital swelling as surgical complication of continuous ambulatory peritoneal dialysis, 306
Heller-Belsey and Heller-Nissen operations for achalasia of esophagus, 212
hepatic abscess after biliary tract procedures, 469
isolated torsion of normal fallopian tube in premenarchial girls, 353
Israeli Study of Surgical Infection of drains and risk of wound infection in operations for hernia, 331
lymphoreticular disease masquerading as or associated with inguinal or femoral hernia, 309
mammographic features of intracystic papillary lesions, 113
management of splenic trauma in adults with blunt multiple injury, 204
modern standards for comparison with alternative treatments for symptomatic cholelithiasis with emphasis on long term relief of symptoms, 39
natural history of pancreatic pseudocysts documented by computed tomography, 411
needle-localized biopsy of breast, 145
open treatment with drainage for ingrowing toenail, 223
operative and functional results of total mesorectal excision with ultra-low anterior resection in management of carcinoma of lower one-third of rectum, 517
palliation for nonpancreatic malignant obstruction of biliary tract, 437
percutaneous placement of femoral central venous catheter in patients undergoing transplantation of bone marrow, 403
pregnancy after augmentation cystoplasty, 485
principle of management of shotgun wounds, 97
prognosis of nonpalpable, infiltrating carcinoma of breast, 61
prospective, randomized double-blind study, of use of antibiotics at time of mastectomy, 12
quantitative analysis of nodal involvement with respect to survival rate after curative gastrectomy for carcinoma, 488
rational approach to evaluation and management of spontaneous perirenal hemorrhage, 121
recurrent inguinal hernia in relation to ideal body weight, 510
retroperitoneal and peritoneal drainage and lavage in treatment of severe necrotizing pancreatitis, 197
review of carotid endarterectomy in smaller community, 522
role of, second-look procedure in improving survival time for mesenteric venous thrombosis, 287
Tru-Cut® needle biopsy in diagnosis of carcinoma of breast, 407
scar endometriosis, 538
serum amylase levels after obstetric and gynecologic operations, 292
thoracic extension of hydatid cysts of liver, 233
treatment for elderly patients with gynecologic cancer, 379
treatment of fistulas of biliary tract by endoscopic insertion of endoprostheses, 418
treatment options and recurrence potential for cystosarcoma phyllodes, 193
ultrasonically guided biopsy of nonpalpable lesions of breast by spot method, 153
vaginal hysterectomy without ligation of ligaments of cervix uteri, 299
postoperative evaluation, of length of stomach for esophageal substitution, 257

reconstructive, arterial, in patients with polycythemia vera, 314
breast, Kiricuta procedure in treatment of, 209
and construction, of vagina, with cecum, 132
technique, bacteriologic, contact neodynium-yttrium aluminum garnet laser acts as sterilizing scalpel, 17
for decompression of obstructed Kock continent ileostomy, 75
elastic retraction for exposure of femoral artery, 71
emergent and ambulatory operations upon finger, sterile surgical gloving of patient for, 546
cerclage, 323
for evaluation of injured extremity with single film exclusion arteriography, 448
further clinical application of falciform ligament, 167
for high volume drainage beneath large tissue flaps, 70
jejunogastric intussusception, for in situ resection, 165
modified, of colostomy bridging, 453
easy and safe, of endoscopic balloon dilation, for postgastrectomy anastomotic stricture, 445
papilloduodenostomy, 254
performance of safe pyloromyotomy, 347
posterior fundoplasty in treatment of gastroesophageal reflux, 451
pregluing of circular instrumental anastomoses, 161
pyloric preservation and divulsion after pancreaticoduodenectomy, 72
roll over sleeve, simple and safe, for venous anastomosis, 77
simple, percutaneous tracheostomy, 543
to remove defective urinary catheter, 253
of T-tube insertion, in transplantation of liver, 249
simplified, for bilateral aortorenal bypass, 159
to relax sphincter of Oddie during intraoperative cholangiography, 163
for splenopancreatic disconnection with distal splenorenal shunt, 355
slip knot for tying nylon sutures, 67
stapled transabdominal lower esophageal anastomosis without purse-string suture, 156
three swab test using knots for urovaginal fistula, 171
thumb and index finger as principal surgical instruments to secure inferior vena cava between liver and diaphragm in routine operations of liver, 169
transplantation, and islet isolation, in primate, 225
two procedures, for construction of neovagina, cytologic findings after, 21
two team synchronous esophagectomy, 68
use of, choledochofiberscope for intraoperative visualization of intestine, 541
new transhepatic biliary stent tube, in treatment of biliary disease, 358
pulsed dye laser and ultrasonic lithotriptor for removal of multiple hepatic gallstones, 443
training, fiberoptic endoscopy of gastrointestinal tract, 283
zero operative mortality rate in 109 consecutive elective aortic operations performed by residents, 385
Surgical pros and cons
65; 65-66; 66; 149-150; 150-151; 152; 441; 442
Sutures
nylon, tying, slip knot for, 67
types, purse-string, stapled transabdominal lower esophageal anastomosis without, 156
Syndrome
Zollinger-Ellison, peptide release and tumor growth in, effect of somatostatin analog, 476

THORAX
extension of hydatid cysts of liver to, 233
Thrombosis
venous, mesenteric, second-look procedure in improving survival time for, 287
Thyroid gland
surgery, excision, Graves' disease, clinical evaluation of response, 327
Tissue
flaps, large, high volume drainage beneath, technique for, 70
Trachea
surgery, percutaneous, simple technique for, 543
Transplants
autogenous, intestinal, experimental, early and long term effects on intestinal motor patterns, 338
experimental, autogenous, intestinal, early and long term effects on motor patterns, 338
primate, islet isolation and, technique in, 225
kidney, augmentation of bladder in preparation for, 349
liver, analysis of surgical complications after, 317
choledochocholedochostomy without T tube or internal stent in, 239
T-tube insertion, simple technique for, 249
marrow, percutaneous placement of femoral central venous catheter in, 403
Trauma
abdominal, and chest, and operation and cosyntropin stimulation, adrenal response to, 513
injury, blunt, multiple, management of splenic trauma in adults with, 204
spleen, management, in adults with blunt multiple injury, 204
Tumors
conferences, hospital, results of national survey of characteristics of, 1
cystosarcoma phyllodes, treatment options and recurrence potential, 193
growth, and peptide release, in Zollinger-Ellison syndrome, effect of somatostatin on, 476
teratoma, obstruction of neonatal airway from, 126

URINARY TRACT
catheter, defective, remove, simple method for, 253
fistula, and vagina, three swab test using knots for, 171
shotgun, management, principles of, 97
Uterus
cervix, cerclage, emergent, 323
ligaments, vaginal hysterectomy without ligation of, 299
endometrium, endometriosis, scar, 538
excision, hysterectomy, vaginal, without ligation of ligaments of cervix, 299
pregnancy, complications, after augmentation cystoplasty, 485
impact of universal screening for gestational glucose intolerance on outcome, 427
ovarian, surgical management, diagnosis and modern surgical treatment of, 395
surgery, cervix, emergent cerclage, 323
hysterectomy, vaginal, without ligation of ligaments of cervix, 299

VAGINA
cytologic findings after construction of neovagina using two surgical procedures, 21
fistula, and urinary tract, three swab test using knots for, 171
surgery, construction, and reconstruction of, with cecum, 132
hysterectomy, without ligation of ligaments of cervix uteri, 299
neo-, construction of, using two surgical procedures, cytologic findings after, 21

WEIGHT
body, ideal, recurrent inguinal hernia in relation to, 510
Wounds
infection, risk of and use of drains in operations for hernia, Israeli Study of Surgical Infection, 331
healing, formula for, platelet-derived, use in stimulation of repair in chronic, nonhealing cutaneous ulcers, 56
shotgun, management, principles, 97
